

Lab-in-a-Box® QUALITY

FEATURES

Lab-in-a-Box is a proprietary kit designed to serve the needs of home health care providers.

Simplifies the blood collection process

Requires no spinning before drop-off

Maintains high specimen quality

Using Lab-in-a-Box® EASY AS "1, 2, 3"

Lab-in-a-Box provides all of the supplies required for easy blood collection. Lab-in-a-Box consists of 3 simple steps:

Step 1. **DRAW IT!**

Perform collection.

Step 2. **PACK IT!**

Pack specimens into the Styrofoam cooler with TempPacks per instructions, along with test request form.

Step 3. **DROP IT!**

Choose a convenient delivery option.

The Lab-in-a-Box kit includes:

1. Cardboard box
2. Styrofoam box
3. Paperwork in clear pouch: test request form (TRF) with bar code labels
4. Biohazard bag with tubes
5. Dual TempPack
